

YOUR Strange Companions

Your Strange Companions are an American band based in Portland, OR. They perform original country and rockabilly from the bandleader's Tennessee homeland, a mythical place on highway 45, musically and geographically halfway between Memphis and Nashville.

The band is constructed like the legendary Sun Studios combos of old, featuring upright bass, acoustic rhythm guitar, electric lead, and minimalist drums. Think of the songwriting style as "drinking songs for the thinking man, and vice versa." The band has a contagious amount of fun, and swinging, singing, dancing, and frivolity are highly encouraged.
